## Purely Business!

The columns of a newspaper represent a cash value. No publisher can afford to give advertising notices free any more than a merchant can lose over his counter free gifts of dry goods or shoes. A newspaper is a legitimate business concern. Its columns are its stock in trade and advertisements should be paid for, no matter in what part of the paper they appear.

# We Have!

Always contended for and maintained it is a fact that there is a higher order of intelligence evinced in the business of general merchandise by the people in this and nearby counties than most anywhere else. You will find few persons who do their shopping in Maysville who believe that \$1.25 will buy a \$12 suit of clothes. Our many years experience goes to show that people want good goods, and for which they are willing to pay a fair price. Our 1898 spring business proves that the higher the class of goods the readier they sell. Our beautiful Black and Blue Serge Suits (we sell them at \$12) have bounded into wonderful great favor with our good dressers. We have a beautiful line for our. The weather is getting right for our

Maysville certainly had her share of the "push" yesterday. At 10:10 a. m. the Olinquon train on the C. and O. left quite a number of people here, at 11:30 a train on the L. and N. from Paris dumped a large crowd of colored people into the city to attend the campmeeting at Dietrich's Park, and about 5 o'clock the steamer New South came in from Cincinnati with about 750 people. Had the day been a few hours longer no telling what would have happened along next.

**MAYSVILLE'S OPPORTUNITY.**  
Large Chair Manufacturing Plant Desires to Move to This City.

Mr. John Duley is in receipt of a letter from a large chair manufacturing plant in Cincinnati asking for a suitable building in this city in which it can establish its business.

This, it seems, is an opportunity that our citizens cannot afford to let slip away from them to another city, as it takes factories to make a city, something that Maysville is sorely in need of.

Any one having a building suitable for such business—own with a boiler and engine preferred—will please call on Mr. Duley at the State National Bank.

**DROWNED AT RIPLEY.**  
Mate on Price's Showboat Walked off the Courier This Morning.

A man by the name of Dunham, Mate on Price's Showboat, was a passenger on the steamer Courier this morning as far as Ripley.

He walked into the engine room of the steamer when several miles below that point and sat down in a chair and went to sleep.

The Engineer woke him up after the boat had whistled for Ripley at 2 o'clock this morning, and he arose and walked to the door that opened on the right side.

He was told that Ripley was on the other side, and when the engineer turned his attention to the engine the man disappeared.

Diligent search was made for him by the officers of the boat, but he could not be found, and when the boat landed at Ripley those who got off were noticed closely and Dunham was not among them.

The Engineer of the Courier is positive that he walked overboard into the river and was drowned.

4 Plain Silk Sun Shades, \$3.75 instead of \$5.  
6 Fanned Taffeta Sun Shades, \$9.50 instead of \$15.

## SHIRT WAISTS.

They sell without advertising, and yet it's hard to shake off the habit of spending advertising money for things that have no need of it. Our counters tell the Shirt Waist story better than pen, type or printer's ink can do. Not a waist in the lot but would be cheap at one-fourth more than we ask. They are all this season's styles in make and material and finished with care always given samples. No. 1 assortment.

## COTTON DRESS SKIRTS.

It's satisfying to choose from such a carefully selected stock as this. It's so easy to be careless—so many cheapish sorts come a-begging with their little prices, but quality must be right in each grade, material the latest, or they don't get into our stock. Handsome Wide Wale Figue Skirts, \$1.00, \$1.50. Stylish Duck Skirts, 75c. New Homespun Skirts, \$1.10.

THE BUYERS' GUIDE.

The Largest Shipment of

Deering

Twine.

That Ever Came to

Northeastern Kentucky

was received Monday, Tuesday and Wednesday, May 9th, 10th and 11th, by

JOHN I. WINTER, THE PRICE FIGHTER. There was 30,000,000 (thirty million)

feet in the shipment, and every foot of it is the justly famous Deering Pure Sial

Pure Sial. None of us are too old to learn. If your neighbors are using a better

twine than you are, surely you wish to know it. The demand for Deering Pure

Sial Twine has become so great that we were compelled to this year buy 30,000,000

feet to accommodate the wants of our customers. Now, listen. Every inch of this

Twine is tested at a much higher tension than any binder requires in using; while in

other makes of twine only 100 feet out of every 50,000 feet is tested. Deering Pure

Sial Twine is made of extra long (brist) strands of Pure Sial Fiber, which permits

of very fine spinning, thus producing more bundles to the pound than any other

twine in the world. To make a long story short, I offer the following: Take out a

lot of Deering Pure Sial Binder Twine, try it, and if you don't find that it will bind an

acre of wheat with less pounds than any other twine made, if you don't find that it

is the strongest twine made, if it is not the best twine that you ever used, you will

please return it and every cent of your money will be made. Surely, that's fair.

You are to be your own judge. Say, I can save you big money on twine. I bought

my twine some time since when it was selling below the cost of production. Twine

has advanced ever since. I am willing to give my friends and customers the advan

tage of my judicious purchase. I am selling twine today at a pound less than the

market price. In buying Binder Twine, Farm Wagon, Farm Implements, Mowers,

Say Bakes Self Binders or Furniture it always pays to consult The Price Figh

ter.

The Big Sandy river is about stationary with a good boating stage.

The Virginia will pass down tonight from Pittsburgh with a big trip.

The Gate City passed down Saturday with a miscellaneous tow from Point Pleasant for Cincinnati.

The W. W. O'Neil and Boaz, which are on their way up, are expected to set at for as New Cumberland.

The Raymond Horner, with a tow of empty coal craft, from New Orleans en route to Pittsburgh, passed up.

The George Matheson, which has been laid up at Cincinnati for a week or two, is receiving a general overhauling and will be painted before she comes out again.

The Ark passed up for Point Pleasant Saturday with a tow of empty barges. She will bring a tow of coal from Pittsburgh if a rise comes at that point before it dries in the Kanawha.

Captain J. E. Nixon of Pittsburgh, an Ohio river Master and Pilot, has filed an application with the War Department for a line office in the Navy for anything from Ensign up. His application has been placed on file and has been not filed that when appointments are made it will be given due consideration. Captain Nixon is the first Pittsburgh licensed river master to make application for a post in the Navy.

The wickets at the Davis Island Dam were raised Saturday night. A half dozen poolboats are tied above Lock No. 3 with tow of coal unable to bring them below that lock. The recent heavy rains caused a large bar to form at the mouth of the creek at Lock No. 3 and boats cannot get around it. The Pittsburgh Coal Exchange will probably request Major Powell to have it dredged at once, as boats cannot be moved until the bar is removed.

An important event in the history of Free Masonry occurred at the session of the Grand Lodge at Seattle, Wash. It was in effect the recognition of Negro lodges and their authority to confer Masonic degrees. The recognition is limited to Negro lodges holding charters from the Grand Lodges of England, and is the first recognition of Negro Masonry by any Grand Jurisdiction in the United States.

The Lexington Herald Makes Some Suggestions Mayville Might Follow.

The need of a park in Lexington is but too plainly shown by the number of people who resort to the Cemetery as a place to spend these hot Sunday afternoons. Yesterday at the Pythian memorial services quite a crowd was collected by the drums and the procession of uniformed men, who had no interest at all in the ceremonies except idle curiosity, and were merely out to seek some quiet way of spending the afternoon. While the Cemetery is a very beautiful place, still by the very character of the surroundings, anything more than the quietest enjoyment is prohibited. It is to be hoped that the city fathers will see fit to give us a park at the reservoir, where picnic parties can enjoy themselves and mothers can take their town weary children to spend a day in the sweet country air during the sultry days of summer.
